

It's hard to believe that June has arrived! We have a busy couple of weeks before summer vacation, including our Closing School Liturgy to say farewell to our 8th grade buddies. We'll be working right up until the end learning more words, more math facts and more about God's world.

Thank you to the many parents who have been able to join us for field trips--I appreciate your support and the children are always glad to share these special days with you. I will miss you in the years to come, and know that those who will teach your children will be blessed as I have been.
